■ CERTIFIED WOMAN-OWNED BUSINESS · SCTRCA MBE · WBE · HABE · SBE · ESBE

Baptist Medical Center emergency department renovation, San Antonio, TX · GC: Robins & Morton

COMPANY OVERVIEW

A focused Division 05 & 09 partner for general contractors.

CCGroup Interiors LLC is a San Antonio-based, owner-led subcontractor. We stay inside three trades so our crews, estimators and supervisors know these systems cold. General contractors work directly with company leadership from bid to closeout, and our field leadership walks the work in person.

Our work ranges from a new University Health hospital to emergency departments, K-12 schools and university buildings.

Metal framing

SEC 05 40 00 · 09 22 16

Exterior cold-formed and interior metal framing: partitions, soffits, bulkheads, shaft wall, head-of-wall and backing, laid out from the drawings.

Drywall & gypsum assemblies

SEC 09 29 00

Fire- and sound-rated assemblies, abuse-resistant and lead-lined board, Level 4 and 5 finishes.

Acoustical ceilings

SEC 09 51 00

Suspended grid and tile, specialty and metal panel ceilings, coordinated with MEP above the ceiling.

35+ General contractor clients	.86 Experience modification rate	0.00 TRIR, 2025	0 OSHA-recordable incidents, 2021–2025

SELECTED PROJECTS

Spaces we help build.

Healthcare, education and commercial interiors for San Antonio's leading general contractors.

HEALTHCARE · IN PROGRESS

University Health Retama Hospital

Selma, TX · **GC:** Layton Construction · **Architect:** Marmon Mok · **Started:** November 2024

Acoustical and specialty ceilings throughout the hospital, exterior metal panel ceilings at the entry canopies, and cubicle curtain track in patient areas.

Canopy ceilings were sequenced behind work by other trades and split material deliveries. Approved submittals were checked against the specified finishes before installation, and questions went through formal RFIs. Interior production ran with up to seven two-person ceiling crews, tracked weekly against the estimate.

Acoustical ceilings
